Important information

Changes for 2015

The 2015 New York State personal income tax rate schedules have been revised to reflect the cost of living adjustment required under the Tax Law. In addition, the Yonkers withholding tax rate of 19.2% in effect over the period August 1 through December 31, 2014, has been lowered to the annualized rate of 16.75%. Therefore, the Yonkers resident withholding tables have been revised. Accordingly, effective for payrolls made on or after January 1, 2015, employers must use the revised withholding tax tables and methods in this publication to compute the amount of Yonkers resident personal income taxes to be withheld from employees.

The Yonkers nonresident earnings tax rate has not changed.

Form IT-2104 – Employee’s Withholding Allowance Certificate

The 2015 New York State Form IT-2104 has been revised to account for the cost of living adjustments to the personal income tax rate schedules required under the Tax Law. The revised withholding tables and methods in Publication NYS-50-T-Y should ensure that the proper amount of tax is withheld for 2015. However, employers should encourage employees who completed a Form IT-2104 prior to January 1, 2015, using the worksheet to compute withholding allowances, or the charts in Part 4 or Part 5 to enter an additional dollar amount of Yonkers withholding on line 5, to complete a revised Form IT-2104.

Supplemental wage payment withholding rates

Effective January 1, 2015

If you pay supplemental wages (bonuses, commissions, overtime pay, sales awards, etc.) with regular wages but do not specify the amount of each, withhold income tax as if the total were a single payment for a regular payroll period.

If you pay supplemental wages separately (or combine them in a single payment and specify the amount of each), the income tax withholding method depends partly on whether or not you withhold income tax from your employee’s regular wages:

- If you withhold income tax from an employee’s regular wages, you can use one of the following methods for the supplemental wages:
 - a. Withhold at the following supplemental rates:

Yonkers Resident	1.61135% (.0161135)
Yonkers Nonresident	0.50% (.0050)
 - b. Add the supplemental and regular wages for the most recent payroll period this year. Then figure the income tax withholding as if the total were a single payment. Subtract the tax already withheld from the regular wages. Withhold the remaining tax from the supplemental wages.
- If you did not withhold income tax from the employee’s regular wages, use method **b**. (This would occur, for example, when the value of the employee’s withholding allowances claimed on Form W-4 is more than the wages.)

Also see federal Publication 15, *Circular E*, for a list of other payments that may be considered supplemental wages.

Using the tables below, compute the total deduction and exemption allowance to subtract from wages.

Table A

Combined deduction and exemption allowance (full year)

Using *Payroll type*, *Marital status*, and the *Number of exemptions*, locate the combined deduction and exemption allowance amount in the chart below and subtract that amount from wages, before using the exact calculation method (or dollar to dollar withholding tables) to determine the amount to be withheld.

(Use Tables B and C below if more than 10 exemptions are claimed.)

Table C

Exemption allowance

Based on a full year exemption of \$1,000.

Multiply the number of exemptions claimed by the applicable amount from the table below and add the result to the deduction amount from Table B.

Payroll period	Value of one exemption
Daily/miscellaneous	\$3.85
Weekly	19.25
Biweekly	38.50
Semimonthly	41.65
Monthly	83.30
Annual	1,000

Table D

Adjustment for difference between federal* and New York exemption allowances

For employers who elect to use the federal exemption amounts* in computing wages after exemptions, the following adjustments correct for the difference between the federal exemption of \$3,950* and the New York State exemption of \$1,000 according to the particular payroll period.

To correct for the lower New York State exemption allowances: Multiply the amount below for one exemption by the number of exemptions claimed. Add the product to the federally computed wages after exemptions.

Payroll period	Adjustment for each federal exemption
Daily/miscellaneous	\$11.35
Weekly	56.75
Biweekly	113.50
Semimonthly	122.90
Monthly	245.80
Quarterly	737.50
Semiannual	1,475.00
Annual	2,950.00

* The adjustments in Table D are based on the 2014 federal exemption amount of \$3,950. The federal exemption amount may be adjusted for inflation as prescribed by the Internal Revenue Code. For an annual payroll period, the adjustment for each federal exemption should be changed by subtracting \$1,000 from the current federal exemption amount. Other payroll periods should be recalculated accordingly.

Instructions and Examples

Steps for computing the amount of tax to be withheld:

Step 1 If the number of exemptions claimed is ten or fewer, look up the total exemption and deduction amount in Table A on page 14, according to the payroll period and marital status claimed. (If there are more than 10 exemptions, multiply the number by the exemption amount in Table C on page 14 and add it to the deduction amount from Table B.) Subtract the total exemption and deduction amount from the wages to get net wages.

For weekly payroll periods, if the amount of net wages is \$600 or less, you may use the simplified Dollar to Dollar Withholding Table beginning on page 20 to find the amount to withhold. Otherwise, continue with Step 2.

Step 2 Locate the table on page 17 for the appropriate payroll period. Find the line on which the net wages fall between the amounts in Columns 1 and 2.

Step 3 Following across on the line you found in Step 2, subtract the amount in Column 3 from the net wages.

Step 4 Following across the same line, multiply the result from Step 3 by the amount in Column 4.

Step 5 Following across on the same line, add the result from Step 4 to the amount in Column 5. Multiply the result by 16.75% (.1675). Withhold the resulting product from wages

Examples

Instructions and Examples**

Steps for computing the amount of tax to be withheld:

Step 1 If the number of exemptions claimed is ten or fewer, look up the total exemption and deduction amount in Table A on page 14, according to the payroll period and marital status claimed. (If there are more than 10 exemptions, multiply the number by the exemption amount in Table C on page 14 and add it to the deduction amount from Table B.) Subtract the total exemption and deduction amount from the wages to get net wages.

For weekly payroll periods, if the amount of net wages is \$600 or less, you may use the simplified Dollar to Dollar Withholding Table beginning on page 20 to find the amount to withhold. Otherwise, continue with Step 2.

Step 2 Locate the table on page 19 for the appropriate payroll period. Find the line on which the net wages fall between the amounts in Columns 1 and 2.

Step 3 Following across on the line you found in Step 2, subtract the amount in Column 3 from the net wages.

Step 4 Following across the same line, multiply the result from Step 3 by the amount in Column 4.

Step 5 Following across on the same line, add the result from Step 4 to the amount in Column 5. Multiply the result by 16.75% (.1675). Withhold the resulting product from wages

Yonkers - Nonresident Earnings Tax

Method VII - Exact Calculation Method

This method is for employees residing outside Yonkers who earn wages in Yonkers paid by an employer maintaining an office or transacting business within New York State.

This method applies the tax rate of 0.50% (.0050) to the wages remaining after the allowed exclusion is subtracted. It includes a provision for no withholding if wages are less than an indicated amount of wages.

Steps for computing the amount of nonresident earnings tax to be withheld:

Step 1 – Find the proper table in the Table II series above, according to the payroll period. Find the line on which the amount of gross wages is equal to at least Column 1 and less than Column 2.

If the wages are found on line 1, there is no withholding (no further steps are needed).

Step 2 – Subtract the Column 3 exemption amount on the line found in Step 1 from the gross wages.

Step 3 – Multiply the result of Step 2 by 0.50% (.0050). The product is the amount of tax to withhold each pay period.

Example 1:

Weekly payroll, \$75 gross wages

Step 1 Use Table II - A for weekly payroll. Wages of \$75 are found on line 1, since \$75 is at least \$0 and less than \$77. No tax is to be withheld from these wages.

Example 2:

Weekly payroll, \$200 gross wages

Step 1 Use Table II - A for weekly payroll. Use line 3 (\$200 is at least \$192 and less than \$385).
 Step 2 \$200 - \$38 (exemption) = \$162
 Step 3 \$162 x .0050 = \$0.81

Example 3:

Semimonthly payroll, \$400 gross wages

Step 1 Use Table II - C for semimonthly payroll. Use line 2 (\$400 is at least \$167 and less than \$417).
 Step 2 \$400 - \$125 (exemption) = \$275
 Step 3 \$275 x .0050 = \$1.38

Yonkers - Nonresident Earnings Tax

Method VIII - Annualized Tax Method

This method is for employees residing outside Yonkers who earn wages in Yonkers paid by an employer maintaining an office or transacting business within New York State.

This method annualizes the pay for a given payroll period, computes the tax liability for the year, and divides the annual tax by the number of payroll periods for the tax to be withheld. This is the recommended method when the pay is steady, with little or no fluctuation, because a single computation for an employee may suffice for the year.

Table P Annual Factors

Daily	Weekly	Biweekly	Semimonthly	Monthly
260	52	26	24	12

Annual Tax Rate Schedule

The Yonkers nonresident earnings tax rate is .50%

Withholding is not required for annualized pay that is less than \$4,000.

Line number	If annualized pay is:		The annualized exclusion is
	Over Column 1	But not over Column 2	
1	\$0	\$3,999.99	No tax withheld
2	3,999.99	10,000	\$3,000
3	10,000	20,000	2,000
4	20,000	30,000	1,000
5	30,000		0

Steps for computing the amount of nonresident earnings tax to be withheld:

- Step 1 Multiply gross wages for the payroll period by the number of payroll periods in the year, as found in Table P above. This is the amount of annualized pay.
- Step 2 Find the line in the Annual Tax Rate Schedule (at left) on which the annualized pay is more than the amount in Column 1 but not more than the amount in Column 2.

If the annualized pay is found on line 1 (i.e., it is over \$0 but not over \$3,999.99), there is no withholding required (and no further steps are needed).
- Step 3 Subtract the exemption amount found in Column 3 on the line found in Step 2 from the annualized pay found in step 1.
- Step 4 Multiply the result from Step 3 by the tax rate, which is .50% (.0050).
- Step 5 Divide the result from Step 4 by the number of payroll periods, which is the same number found in Table P and used in Step 1.

Example 1:

Weekly payroll, \$75 gross wages

Step 1 The annual factor for weekly wages found in Table P is 52.
 $\$75 \times 52 = \$3,900$

Step 2 \$3,900 is found on line 1 since it is over \$0 but not over \$3,999.99. No tax is to be withheld.

Example 2:

Weekly payroll, \$200 gross wages

Step 1 The annual factor for weekly wages found in Table P is 52.
 $\$200 \times 52 = \$10,400$

Step 2 \$10,400 is found on line 3 since it is over \$10,000 but not over \$20,000.

Step 3 $\$10,400 - \$2,000 = \$8,400$

Step 4 $\$8,400 \times .0050 = \42.00

Step 5 $\$42/52 = \$.81$ Withhold this amount

Example 3:

Semimonthly payroll, \$400 gross wages

Step 1 The annual factor for semimonthly wages found in Table P is 24.
 $\$400 \times 24 = \$9,600$

Step 2 \$9,600 is found on line 2 since it is over \$3,999.99 but not over \$10,000.

Step 3 $\$9,600 - \$3,000 = \$6,600$

Step 4 $\$6,600 \times .0050 = \33.00

Step 5 $\$33.00/24 = \1.38 Withhold this amount

These instructions explain how to convert a table or method for the more common payroll periods in this booklet to use for other payroll periods.

A. General rule

1. Determine the factor that will convert the payroll in question to a more common payroll period for which tables are available (i.e., quarterly is 3 times the monthly, 28-day is 2 times the biweekly, etc.).
2. Using this factor, convert the payroll to the equivalent for the more common period (quarterly \div 3 = monthly, etc.).
3. Apply the table or method for the more common period to the derived equivalent wages, and get the amount to be withheld for the more common period.
4. Convert the amount that would be withheld for the more common period by the factor found in Step 1 above. This is the amount to be withheld for the payroll period in question.

B. Using the Monthly table for Quarterly payrolls

1. Quarterly (3 months) \div monthly (1 month) = factor of 3.
2. Divide the quarterly wages by 3 to get a monthly equivalent.
3. Refer to the monthly withholding table, using the monthly equivalent wages, and get the amount that would be withheld monthly, under the appropriate exemption column.
4. Multiply the monthly withholding amount by 3 to get the quarterly equivalent. This is the amount to be withheld.

Example 1: Yonkers - Resident Tax

Quarterly wages of \$6,750, married with 2 exemptions:

- (1) Factor = 3
- (2) $\$6,750 \div 3 = \$2,250$
- (3) Refer to Yonkers Resident Monthly Married Table (page 11). Withholding tax on \$2,250 wages, 2 exemptions = \$11.20.
- (4) $\$11.20 \times 3 = \33.60

Example 2: Yonkers - Nonresident Earnings Tax

Quarterly wages of \$6,750:

- (1) Factor = 3
- (2) $\$6,750 \div 3 = \$2,250$
- (3) Refer to Yonkers Nonresident table, Monthly column (page 22). Withholding tax on \$2,250 wages = \$10.80.
- (4) $\$10.80 \times 3 = \32.40

C. Using the Monthly table for 10-day payroll

1. The monthly is 3 times the 10-day payroll.
2. Multiply the 10-day payroll by 3 to get a monthly equivalent.
3. Refer to the monthly table, using monthly equivalent wages and get the amount that would be withheld monthly, under the appropriate exemption column.
4. Divide the monthly amount to be withheld by 3 to get the 10-day equivalent of the amount to be withheld.

D. Salaries paid on a 10-month basis: Converting salaries to a 12-month basis in order to use the Monthly table (or Semimonthly, etc.)

1. Divide the annual wages by 12 to arrive at the equivalent monthly wages (if payments are made semimonthly instead of monthly, divide by 24).
2. Refer to the monthly table, using the derived equivalent monthly wages from Step 1 above, and obtain the amount that would be withheld monthly 12 times per year, under the appropriate exemption column. (If payments are made semimonthly, use that table.)
3. Multiply the amount that would be withheld 12 (or 24) times a year found in Step 2 above by 1.2 (12/10 or 6/5), to allow for the fact that withholding will occur in only 10 of the 12 months. This is the amount to be withheld from each of the 10 monthly payments or, if payments are semimonthly, from each of the 20 semimonthly payments.
